

Envelope Imager I

TECHNOLOGICALLY ADVANCED

Affordable. Are you still sticking address labels on your mailings because envelope printers are too expensive? Well it is time to celebrate! The reasonably priced Envelope Imager I prints addresses and barcodes directly onto mailpieces at speeds up to 8,500 pieces per hour – it's fast and does not cost a lot of money.

Durable and reliable. It is quality-engineered for smooth, reliable performance. With a life cycle of millions of envelopes, the Envelope Imager I is built to last.

Easy to set up, easy to use. Load in your mailpieces, adjust for thickness, position the cartridges, and print! It's that easy! Use your own software to print addresses, barcodes, graphics and TrueType fonts.

Four print qualities. Being able to choose between 600, 450, 300 & 200 dpi optimizes consumption and maximizes performance on glossy material. Also, print speed remains the same regardless of the print quality selected!

High performance, low cost. You won't find a better printer for the price. The Envelope Imager I is the best entry-level printer in the industry. Quality, performance, and durability are standard features.

At FP, we're constantly exploring new technologies to improve our mailing equipment so we can improve your mailing operations. It's part of what makes FP the right choice for your mailroom.
