

TL-100 Tabber/Labeler

TECHNOLOGICALLY ADVANCED

Unlike expensive on-line systems, the TL-100 Tabber & Labeler does twice the work at half the cost. As a tabber, it effectively seals open-ended mailers and may earn you U.S. Postal discounts. As a labeler, it affixes self-adhesive labels to all sorts of pieces and can even help presort your mailing.

TL-100 Tabber/Labeler

T E C H N O L O G I C A L L Y A D V A N C E D

The TL-100 can tab up to 15,000 open-ended self-mailers per hour, saving you hours of staff time. Just load the mail pieces and continuous tabs and set the tabbing position. The rest is automatically handled in one smooth operation.

You can also use the TL-100 to affix up to 10,000 labels per hour to direct mail, envelopes, magazines, and more by using standard, inexpensive computer labels that are 1/4" to 6 3/8" wide with heights from 3/4 inch on up!

You'll be able to handle virtually all your needs with this one easy system. It can handle most any mailing material with lengths from 3 1/8" to 31 1/2" and widths from 3 1/8" to 15".

When you want help presorting mail, simply remove one label between each zip code. The TL-100 electronic eye will automatically stop the unit as each new zip code is reached. Plus you can keep track of every piece you process with the digital counter.

Why spend a bundle for labeling and tabbing? The TL-100 does a whole lot more for a lot less. Optional CS Conveyor/Stacker is available.
